ABOUT

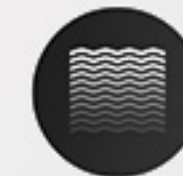

ELITE NANO CERAMIC

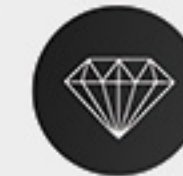

Black Armor Elite advanced Nano Ceramic composition ensures your comfort and security. Provides maximum heat rejection without the risk of interference to GPS, and satellite navigation caused by traditional metal-based films.

SIGNAL-FRIENDLY CONSTRUCTION

SUPERIOR IR (INFRARED) REJECTION

EXCELLENT DURABILITY

SPECS

ELITE NANO CERAMIC

Elite	VLT	Heat	Glare	UV	TSER	Thickness	IR
E38	42%	73.60%	65%	99%	56.10%	2.0ml	94%
E20	19%	78.50%	77%	99%	59.70%	2.0ml	93.6%

DEFINITIONS

VLT = Percentage of visible daylight that passes directly through a window.

Heat = Heat blockage via reflection and absorbency.

Glare = Total glare reduction.

UV = Percentage of ultraviolet protection

TSER = Percentage of the total solar energy that is rejected. TSER includes visible light, infrared radiation and ultraviolet energy.

Thickness = Total thickness of window film.

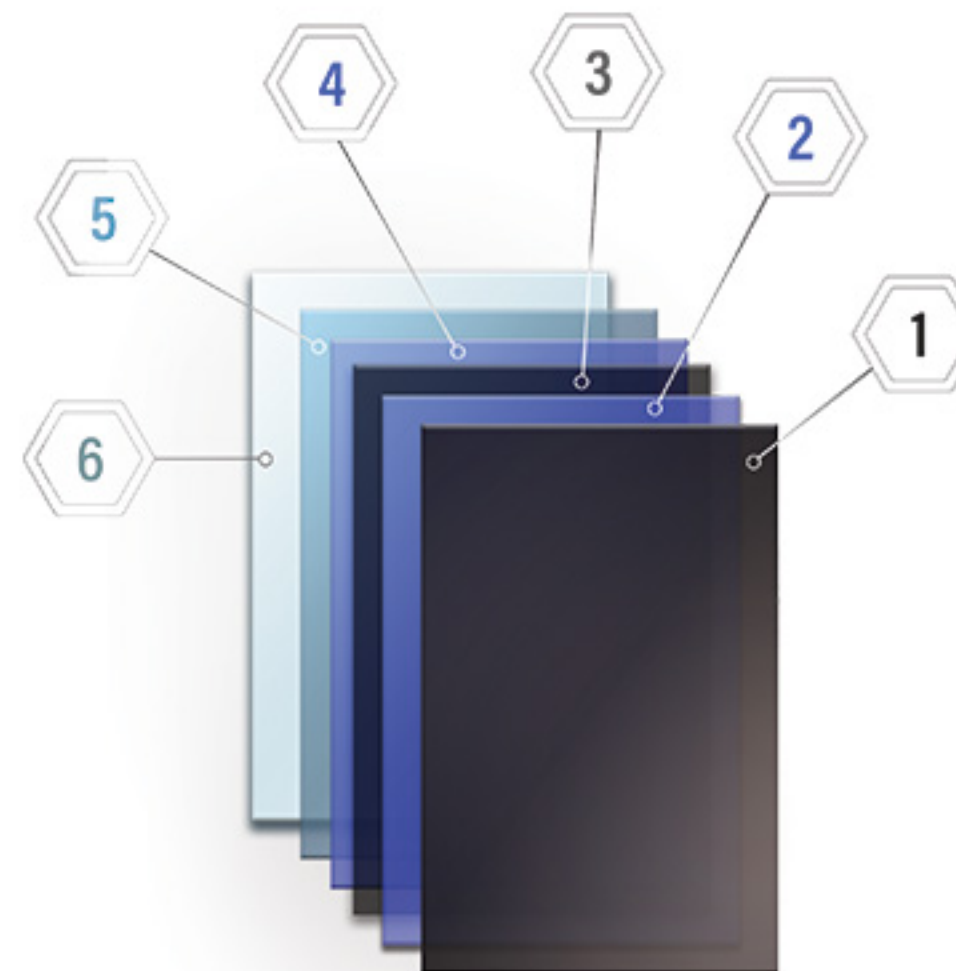

Published values are representative of typical production runs and are subject to normal manufacturing tolerances within industry

NANO CERAMIC TECHNOLOGY

Our Elite window film uses Nano Ceramic technology and offers the ultimate solution for producing the absolute best results on automotive glass. This premium film has superior properties and features with excellent heat rejection over 65%, glare reduction over 70%, an IR 90+ rating providing excellent infrared performance and 2ml thickness for extra security and protection.

Below are just a few reasons why you should choose our Elite Nano Ceramic film:

- Advanced Nano Ceramic technology
- Signal friendly construction
- Increase air conditioning efficiency & therefore reduces fuel consumption
- High IR (Infrared) rejection
- Great colour
- More durable
- Long lasting

1 | NANO CERAMIC HARD COAT
LOW RAINBOW MATERIAL + IR LIQUID

2 | DYED PET

3 | LAMINATE ADHESIVE
IR MATERIAL INCLUDED

4 | CLEAR POLYESTER LAYER

5 | MOUNTING CLEAR ADHESIVE

6 | GLASS

PET (also abbreviated PETE) is short for polyethylene terephthalate, the chemical name for polyester.

BENEFITS

7 REASONS TO TINT YOUR CAR

Window tints provide an upgraded driving experience with several benefits including UV, glare + heat rejection, keeping you cool and comfortable whilst protecting your car interior from sun damage. Cruise around in privacy, comfort and style with this affordable luxury!

- 1 Decrease Heat. Today's window film is extremely efficient at controlling the effects of solar energy.
- 2 Reduce Fading
- 3 Cut Glare
- 4 Improve Comfort and enjoy energy saving
- 5 Increase Safety
- 6 Enhance your vehicle's appearance
- 7 Minimise Cancer & Sunspots

LIFETIME WARRANTY

AUTOMOTIVE WINDOW FILM

All Black Armor automotive window films come with a lifetime warranty to give you complete peace of mind. When you put your trust in our quality products, we take care of you and keep you covered.
